Exhibition: Old World Quilts

» *International Quilt Museum, 1523 N. 33rd St, Lincoln, NE*

Old World Quilts transports us to the seventeenth and eighteenth centuries, an age of burgeoning global commerce and cultural exchange. Here you will view some of the earliest textiles from the International Quilt Museum's collection. In this era, Europe's desire for goods from unfamiliar, "exotic" Asian cultures led to unprecedented growth in overseas trade, which also fueled a boom in domestic manufacturing and fed a growing consumer mentality. The introduction of novel production techniques and materials, as well as the development of hybrid designs and aesthetic approaches, resulted in textile designs that are still relevant in our lives today.

Exhibition: Diana Harrison: Traces in Cloth

» *International Quilt Museum, 1523 N. 33rd St, Lincoln, NE*

UK artist Diana Harrison manipulates found items with a variety of techniques that transform them. The fabric, patchwork and quilts in *Traces in Cloth* retain a visual 'trace' of their original state, but are modified by stitching, dyeing, shrinking, bleaching, and printing. The end result is a new textile, with a tactile appeal heightened by a lack of color and an emphasis on the stitched line. Harrison is a senior lecturer in textiles at the University for the Creative Arts, Farnham.

Exhibition: Studio Champloo

» *International Quilt Museum, 1523 N. 33rd St, Lincoln, NE*

The word Champloo (alt. Champuru) is Okinawan slang for "mixed up" or "stirred together." Exploring such quilt-related themes as layering, amalgamation, assemblage, materiality, color, pattern, and non-objective imagery, ten regional artists explore quilts and quilting in the context of their own studio practices. In addition to work in a variety of mediums (painting, printmaking, sculpture, textiles, etc.), the show will present the artists' experiences of engaging with the quilt form.
